THE TERM IN PICTURES

ClassDojo

Make sure you check out the ClassDojo for lots more photos, updates and videos of everything we have been up to in the class so far this year.

Term One

WE'VE BEEN BUSY IN RANG MAHER

English

We have been learning all about Persuasive Writing in English. We spent the last 6 weeks designing and marketing our own chocolate bars. We had to pitch our bar ideas in our class 'Dragons Den' presentations. The winning pod will get to make their chocolate bar!

Welcome!

Welcome all to our Term One newsletter. If you've been following our ClassDojo you know we've been very busy in the Rang Maher classroom this term. Here are some of the highlights of what we have been up to since Halloween!

The Arts

We have been working in small groups with Ms. Barror in Speech and Drama this term. We worked on our confidence and acting skills.

In music, we have been responding to different genres of music and we even tried composing our own pieces using only sounds we can make with our bodies.

History

In history we have been studying Irish mythology. We learned about some creatures and figures from Irish mythology before we remade our own versions of the Giants Causeway myth. We took pictures of freeze frames and then drew in the background afterwards.

Science

In science, we were learning about light and shadows. We explored shadow art and shadow puppetry before making our very own Shadow Puppet Theatre. We wrote our own myths, made our shadow puppets and then told our tales to the class.

Geography

In geography, we were learning all about the physical geography of Ireland. We made a stunning map collage of Ireland when we were learning about the counties. Then we looked at the rivers and mountains of Ireland, making models from aerial photographs.

Students of the Week

Congratulations to all of our 'Student of the Week' winners this term. This class makes it very difficult to pick a winner every week!

Green Streaks

Everyone in our class stayed on a Green card for an incredible 70 days out of 75 this term. That is a huge achievement so well done everyone!

P.E

In P.E, we have been learning about the game of Volleyball. Our skills in spiking, digging and setting have really improved. A few weeks ago we couldn't get the ball over the net! Now we're playing full matches and tournaments.
